

For those who do not want to participate in The National Quality Registry for Assisted Reproduction (Q-IVF)

To develop and ensure the quality of assisted reproduction, your clinic wants to report information about your treatment(s) to Q-IVF. All reporting clinics are responsible for the registry. The registry wants to continuously monitor treatment results and any medical risks for both the IVF children and the treated patients/couples.

Not everyone wants to be involved

Participation is voluntary. If you do not want to participate, you must notify your clinic. It is possible to do this verbally, but for safety and traceability, we prefer that you fill out this form and submit it to your clinic. If you wish to have previously reported data deleted at the register, you need to fill out this form and submit it to your clinic.

I do not want my data to be reported to Q-IVF

I want my data reported to Q-IVF to be deleted
